

KENNEDY VALVE

---

## **The Kennedy Guardian K-81DD**

The Kennedy Guardian K-81DD Fire hydrant was developed in April 2014. Based on the Guardian K-81D design, the K-81DD is easy to install, maintain and repair. The K-81DD utilizes a light weight ductile iron upper barrel to allow for a single man repair. The Kennedy Valve Guardian Hydrants set the standard for quality in the industry and meets or exceeds all requirements for A.W.W.A. C502 latest revision, and is UL Listed and FM Approved.

### **Features**

**5 ¼" Main Valve Opening**

**Light weight Upper Barrel / Nozzle Section (Single Man Repair)**

**Full 360 degree rotation adjustment**

**Full cover Bottom Plate**

**O-Ring seals**

**Upper Barrel with integrated Bonnet**

**High strength ductile iron: Upper, Barrel and Elbow**

**Stop Nut available**

**Utilizes the same internal components as the popular K-81D**

**Existing Guardian K-81D hydrants can be retrofitted with the K-81DD Upper Section**
